

## News

Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

### **Daniel Saval to Speak on Cross-Border Bankruptcy Strategies at ABA International Law Section 2025 Annual Conference**

April 24, 2025

Kobre & Kim's Daniel Saval will be speaking at the ABA International Law Section's 2025 Annual Conference, which this year explores the theme: "Adapting to Today's International Legal Challenges: A New Era?"

Mr. Saval will participate in a panel titled "Cross-Border Bankruptcy Strategies: Leveraging U.S. Mechanisms for Asian Companies," taking place in New York City on April 29. He will be joined by moderator Helen Yan and fellow panelists the Honorable Judge Michael Paek, Adam Goldberg, and Julia Zhu.

The panel will explore core bankruptcy principles and examine the strategic use of U.S. bankruptcy proceedings—particularly Chapter 11 (reorganization) and Chapter 15 (cross-border recognition)—by Asian companies facing cross-border insolvency and asset recovery challenges. Through case studies and analysis of recent trends, the discussion will highlight the advantages of pursuing international bankruptcy matters in the U.S. and provide practical insights into the evolving landscape of cross-border insolvency and asset recovery strategy.
