Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Kobre & Kim at INSOL Hong Kong 2025

March 24, 2025

This year's INSOL Hong Kong 2025 brought together industry leaders to tackle the pressing challenges in global insolvency and asset recovery, and Kobre & Kim was pleased to contribute to the discussion and reconnect with those in the insolvency field.

Daniel Saval joined an expert panel on *"Navigating the challenges confronting practitioners (IPs) when identifying, tracing, and recovering/realizing assets in China,"* sharing insights on overcoming jurisdictional hurdles and enforcement roadblocks.

Additionally, Ilona Groark officially received her INSOL Fellow certificate, recognizing her expertise in cross-border insolvency and restructuring.

Thank you to INSOL International for an excellent conference, and to all the practitioners and industry peers who joined the conversation. Looking forward to continuing the discussions on tackling complex insolvency and asset recovery matters worldwide.
