Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Kobre & Kim at Investing in African Mining Indaba 2025

February 17, 2025

Our team was pleased to attend this year's Investing in African Mining Indaba in Cape Town, where industry leaders, investors, and policymakers gathered to discuss the future of the African mining sector.

A special thank you to **Digitalis** for an insightful breakfast session and to **StoneTurn** and **Camarco** for a fantastic evening, where we had the opportunity to discuss emerging trends in sovereign threats.

As multinational companies continue to invest in Africa's extractive industries, mitigating disputes with sovereign governments remains a critical priority. Kobre & Kim stands ready to assist stakeholders in navigating cross-border disputes and government investigations targeting the assets, liberty and reputation of individuals and their global business interests.

We look forward to continuing these important conversations and strengthening our relationships across the industry.
