Many of our engagements involve matters in which our clients face significant public attention. The following is a list of news stories about the firm, our clients, cases and the results we have achieved.

Richard Clarke to Chair Panel at Asset Recovery Middle East: Fraud Litigation, Enforcement & Contentious Insolvency

October 2, 2024

Recent international judgments illustrate the complexity of navigating cross-border litigation involving sovereigns and state immunity. Kobre & Kim's Richard Clarke will share his expertise in this area at Asset Recovery Middle East: Fraud Litigation, Enforcement & Contentious Insolvency, a conference taking place from October 13 to 15 in Dubai.

Mr. Clarke will present at the "State of the nation - asset recovery involving sovereigns and state immunity" panel on October 14 at 2:20 pm. The panelists will discuss how claimants can ensure awards are paid, even when dealing with a sovereign defendant claiming immunity, as well as how states can protect themselves and preserve their immunity. They will also explore the unique aspects of litigating against sovereigns.
